

All About Baby Calves!

Hi Ella-Rose! Today, we are going to learn about baby calves. A baby calf is a young cow. Just like you, they start out really small and grow bigger as they get older!

What Do Baby Calves Look Like?

Baby calves can be different colors like brown, black, or even white! They have big, bright eyes and soft fur. Sometimes they even have little spots!

What Do Baby Calves Eat?

When baby calves are very little, they drink milk from their mommies, just like how you might drink milk from a glass. After a while, they start to eat grass and special food made for cows.

Where Do Baby Calves Live?

Baby calves usually live on farms. They have lots of space to run around and play with each other. Isn't that fun?

Fun Facts About Baby Calves!

- Baby calves can stand up and walk just a few hours after they are born!
- They like to play and can run really fast!
- Baby calves make a sound called a 'moo' - it's how they talk to each other!

So, baby calves are cute and fun animals that grow up to be big cows. They love to play and have adventures on the farm!
