

Alright, little buddy! Let's talk about the colors of cars, trucks, and buses, and what they might mean!

**Red** means 'Hey, look at me!' It's bright and catches your eye. Red cars can be very fast, just like fire trucks!

**Blue** is calm and cool. Think about the sky! Blue cars are often friendly and like to take you on nice trips.

**Green** represents nature! A green car might remind us of trees and grass. They are a good choice for those who want to help the Earth.

**Yellow** is all about happiness and sunshine! Yellow buses are usually for school, helping kids go to learn and play.

**Black** is very fancy and can make cars look powerful, just like superheroes!

Each color can help us feel different things when we see them. So next time you see a car, think about what color it is and what it might be saying!
