

Okay, kiddo! A 'destination' is like a special place where we want to go.

Imagine if you have a toy box and you want to take your toys to the park. The park is your 'destination' because it's the place you want to get to!

So, when someone says 'destination,' they are talking about the place you are going, like a fun trip to Grandma's house, a birthday party, or even a fun vacation spot!

Isn't that cool? Every time you go somewhere special, you have a destination to look forward to!
