

When someone says, '**Good on you sir!**', they are giving a compliment or saying something nice to a man who has done something good or helpful. It's like saying, '*Well done!*' or '*Great job!*' but in a slightly more fancy way.

This phrase is often used to show appreciation when someone makes a good choice or does something admirable. For example, if a man helps another person or achieves something great, someone might say, '*Good on you sir!*' to show their approval.

So remember, it's a way of cheering someone on and making them feel proud!
