When your daughter verbally explains a Roblox game, it's like telling a story about what she experienced while playing. Let's break it down into simple steps:

1. **Start with the Game Title:** She should begin by mentioning the name of the game. For example, 'I played *Adopt Me!*.
2. **Describe the Objective:** Next, explain what the main goal of the game is. For instance, 'In *Adopt Me!*, the goal is to adopt pets, build houses, and trade with friends.'
3. **Talk About Gameplay:** This is where she can describe how the game is played. 'You can explore the map, interact with pets, and complete different tasks to earn rewards.'
4. **Mention Characters or Elements:** Share details about the characters or features in the game. 'You can choose your character, and there are cute pets like dogs and cats!
5. **Explain What Makes It Fun:** Encourage her to share why she enjoys the game. 'I love adopting new pets and playing mini-games with my friends.'
6. **Wrap Up with Her Opinion:** Finally, she can give her personal opinion. 'I think *Adopt Me!* is super fun because I can be creative and play with my friends.'

By following these steps, she'll be able to share her game experiences clearly and excitingly with others!
