

Do you know why doctors wear white coats? Let's find out!

1. **Clean and Neat:** White coats are very clean and help the doctors look neat and tidy. This makes them look professional, just like superheroes in their special outfits!
2. **Protective:** The white coat helps protect the doctor's clothes from spills and messes when they are helping sick people. Imagine if a doctor accidentally got some medicine on their favorite shirt!
3. **Trust:** The white coat is a symbol that helps us trust the doctor. When you see someone in a white coat, it reminds you that they know a lot about keeping us healthy.
4. **Tradition:** Doctors have been wearing white coats for a long, long time! It's like a special tradition that shows they are dedicated to helping people.

So next time you see a doctor in a white coat, you can remember that it means they are ready to help take care of you!
