

Imagine a really big boat, like a city that's floating on the water! This big boat is called a cruise liner.

On a cruise liner, there are many different places to explore. There are **decks**, which are like floors in a tall building. On these decks, you can find **cafés** where you can eat yummy food, just like a restaurant. There are also **shops** where you can buy fun toys and sweet treats!

Each person traveling on the cruise liner has their own special place to sleep called a **cabin**, which is kind of like a hotel room. In your cabin, you can relax, just like at home!

So, a cruise liner is a super fun place where you can eat, shop, and sleep while sailing on the beautiful ocean!
