

A cruise liner is a big, floating hotel on the water. Just like in a hotel where people go to sleep and relax, passengers on a cruise liner stay in special rooms called cabins.

These cabins are like little homes where guests can sleep, play, and get ready for fun activities on the ship. Some cabins have beds, a bathroom, and windows to see the ocean! Just like you might stay in a hotel when you go on a trip, people stay in cabins when they go on a cruise.

And just like in a hotel, there are many things to do on a cruise liner like swimming, eating yummy food, and having fun with friends and family!
