

A teacher is a special person who helps us learn new things! They show us how to read, write, and play. Imagine a friend who knows a lot about colors, animals, and numbers. A teacher helps us understand these things in a fun way, like stories or games!

When we go to school, our teacher greets us with a smile. They help us when we have questions and cheer for us when we do something amazing. It's like having a big helper who loves to see us learn and grow!
