

Okay! Let's break it down step by step:

1. **What is a passenger?** A passenger is someone who rides on a bus, train, airplane, or any vehicle.
2. **What do they need?** Passengers need something called a ticket. A ticket is like a special pass that lets them ride the vehicle.
3. **What does the ticket do?** The ticket tells the driver or the pilot that the person is allowed to travel. It's like showing your permission slip!
4. **So, who are passengers?** Passengers are those people who have a ticket. They get to sit in their seats, watch the scenery, and enjoy the ride!

So remember, passengers are people who have a ticket to ride somewhere!
