

Okay! So, imagine you have a special team of colorful cars and trucks in the city that help everyone. This team works no matter what—whether it's sunny and bright or raining and wet. This is what we mean by 'come rain or shine.'

Some of these vehicles, like buses and taxis, help take people to places like parks, schools, and stores. They are like friendly helpers that make sure no one gets lost!

Other vehicles, like delivery trucks, are super strong. They carry packages like toys, food, or clothes from one place to another. Imagine a big truck bringing a fun toy to your home—it's doing its job!

So, you see? City vehicles have important jobs, and they work hard every day, no matter the weather!
