

The Four Seasons

The year is divided into four special parts called seasons: winter, spring, summer, and autumn. Each season has its own weather, activities, and things to enjoy!

1. Winter

Winter is the coldest season. It usually starts in December and lasts until March. During winter:

- The weather is chilly, and sometimes it snows, making everything look white and beautiful.
- You can wear warm clothes like jackets, hats, and gloves.
- Fun activities include building snowmen, having snowball fights, and drinking hot cocoa.
- Many holidays like Christmas and New Year also happen in winter!

2. Spring

Spring comes after winter, usually starting in March and going until June. In spring:

- The weather gets warmer, and flowers begin to bloom, filling the world with colors.
- You can see baby animals like chicks and bunnies.
- People start to plant gardens, and it's a great time to enjoy outdoor activities like flying kites or going on picnics.
- Spring is also when we celebrate Easter!

3. Summer

Summer is the warmest season, lasting from June to September. During summer:

- The days are long and sunny, perfect for going to the beach and having fun in the water.
- It's a great time to play outside with friends, ride bikes, and have barbecues.
- You might go on vacation or have trips with your family.
- Many fruits like strawberries and watermelons are ripe and delicious in summer!

4. Autumn (or Fall)

Autumn starts in September and goes to December. In autumn:

- The weather gets cooler, and leaves on the trees change color to red, orange, and yellow before falling off.
- People often celebrate Halloween, where you can dress up in costumes and go trick-or-treating!
- It's a great time for harvesting crops, like pumpkins, and having fun at fall festivals.
- You can jump in piles of leaves and enjoy the cool, crisp air!

Each season is special in its own way, and they all bring different experiences to enjoy! Can you tell me which season is your favorite?
