

What is War?

War is when two groups of people or countries have big fights. These fights can be about land, resources, or power. Just like in a playground, where sometimes kids can disagree and argue, countries can have problems too.

Why Do People Go to War?

Sometimes, people feel like they don't have what they need, or they think someone else took something that belongs to them. When talking and solving problems doesn't work, they might choose to fight instead. This is called war.

What Happens in War?

War can be very serious and sad. People get hurt, and sometimes they have to leave their homes to be safe. It's important to remember that wars often make many people unhappy.

What Can We Do?

Instead of fighting, it's always better to talk and share feelings. Teaching kids to be friends and solve problems nicely is how we can help stop war. Just like sharing toys and playing together is better than arguing!

In Summary

War is a big problem that happens when people can't agree. It's sad and scary for many people. However, by being nice and using our words, we can learn to get along better!
