

Imagine a kenning as a fun riddle or puzzle that tells you what something is without actually saying its name. It's like a secret code that uses clever words to describe an object or person in a unique way. Let's break it down step by step:

Think of a kenning as a special way of talking about something by using a combination of two or more words to create a new meaning. For example, instead of saying 'sun,' you could use the kenning 'sky candle'.

Kenning makes language more exciting and creative by painting a vivid picture in your mind. When you hear 'sea-road' instead of 'ship,' you can imagine a boat sailing across the ocean waves.

Kenning is like a secret language that poets and storytellers use to make their writing more interesting and engaging. It adds a sense of mystery and playfulness to the words they choose.

So next time you come across a kenning, remember it's a clever way of describing things that sparks your imagination and makes language more fun!
