

To convert the fraction **1/5** to a decimal, follow these steps:

1. **Understand the fraction:** The fraction **1/5** means that 1 is divided by 5.
2. **Perform the division:** Divide the numerator (1) by the denominator (5). You can set this up as a long division:

$$\begin{array}{r}
 0.20 \quad \text{-----} \quad 5 \mid 1.00 \\
 - 0 \\
 \text{-----} \\
 10 \\
 - 10 \\
 \text{-----} \\
 0
 \end{array}$$

3. **Write down the result:** The result of the division is **0.2**.
4. **Convert to decimal:** Therefore, **1/5** is equal to **0.2** in decimal form.

So, the decimal equivalent of the fraction **1/5** is **0.2**.
