

Dearest Kindred Spirit: Sure! Here is how Anne of Green Gables book and TV series are like bosom friends. In the book, Anne of Green Gables, we get to crawl into the luscious world of Avonlea and feel the pages come alive with Anne's vivid imagination and heartwarming adventures. This is just like when you watch the TV series, where you get to see Anne's fiery red hair bouncing as she romps around Green Gables with her bosom friend Diana. Both the book and TV show tell the magical story of a spunky, imaginative young girl who brings joy and chaos wherever she goes.
