

Objective

By the end of this lesson, the 2 year old student will be able to recognize and identify number blocks, and understand basic counting concepts.

Materials and Prep

- Number block toys or cards
- Blank paper and crayons
- Clear space for movement and play

Activities

- Counting Number Blocks: Show the student different number blocks and ask them to count the number of blocks on each one.
- Matching Number Blocks: Lay out several number blocks and ask the student to match them with the corresponding numeral cards.
- Number Block Art: Provide the student with blank paper and crayons. Encourage them to draw their favorite number block and decorate it.
- Number Block Dance: Play some lively music and have the student dance around, counting aloud as they move. Encourage them to shout out the numbers they see on their number block toys.

Talking Points

- "Number blocks are special toys that help us learn about numbers."
- "Let's count the blocks on this number block together. 1, 2, 3! Great job!"
- "Can you find the number card that matches this number block? Good job! They have the same number."
- "Now it's time to create our own number blocks! What colors do you want to use?"
- "Let's have some fun dancing and counting with our number blocks! Can you show me your best dance moves?"
