

Objective

By the end of this lesson, the student will be able to cut paper with precision and creativity.

Materials and Prep

- Scissors
- Assorted colored papers
- Pencil
- Ruler

No prior knowledge or preparation is required for this lesson.

Activities

- Activity 1: Simple Cutting Practice

Begin by demonstrating how to hold the scissors and make straight cuts on a piece of paper. Encourage the student to practice cutting straight lines on their own.

- Activity 2: Cutting Shapes

Show the student how to cut out basic shapes such as squares, circles, and triangles. Provide them with various colored papers and ask them to cut out different shapes.

- Activity 3: Create a Collage

Ask the student to cut out various shapes and objects from different colored papers. Then, have them arrange and glue the cut-outs onto a larger paper to create a colorful collage.

Talking Points

- Scissors are tools used to cut paper. Always be careful when using them, and remember to hold them properly.
- When making straight cuts, try to follow the lines as best as you can. It's okay if it's not perfect, practice makes perfect!
- Shapes are all around us! We can cut out shapes like squares, circles, and triangles from paper.
- What shapes do you want to cut out? Let's try cutting out different shapes and see what we can create!
- A collage is a picture made by sticking different things together. We can use our cut-out shapes to make a colorful collage.
- Use your imagination and have fun creating your own unique artwork!
