

## Objective

By the end of this lesson, you will have a better understanding of key events and figures in US history, and be able to make connections between past and present.

## Materials and Prep

- Pen and paper
- Access to a computer or library for research
- Prior knowledge of basic US history

## Activities

- Create a Timeline

Research and create a timeline of significant events in US history. Include important dates, such as the signing of the Declaration of Independence, the Civil Rights Movement, and the moon landing. Be creative and use visuals to make your timeline engaging.

- Historical Role Play

Choose a historical figure that interests you and research their life and accomplishments. Then, prepare a short monologue or skit where you portray that person. Dress up in costume if you like and try to embody their character. This activity will help you gain a deeper understanding of the challenges and achievements of individuals in US history.

- Create a Newspaper Article

Pick a significant event in US history and imagine you are a journalist reporting on it. Write a newspaper article that covers the event in a captivating and informative way. Include key details, quotes from relevant figures, and a catchy headline. This activity will help you practice your research and writing skills while learning about an important moment in US history.

## Talking Points

- The American Revolution

"The American Revolution was a turning point in US history as it marked the beginning of the United States' fight for independence from British rule. It led to the formation of a new nation and the adoption of the Declaration of Independence, which outlined the ideals of liberty and equality."

- The Civil Rights Movement

"The Civil Rights Movement was a pivotal moment in US history that aimed to secure equal rights and end racial segregation. It was led by influential figures like Martin Luther King Jr. and Rosa Parks, who fought for justice and equality through peaceful protests and civil disobedience."

- The Space Race

"The Space Race was a competition between the United States and the Soviet Union to achieve space exploration milestones. It resulted in significant advancements in technology and led to the first moon landing by the Apollo 11 mission in 1969. This event showcased the US's scientific and technological capabilities."
