

## Objective

By the end of this lesson, you will have explored different careers and gained insight into various professions.

## Materials and Prep

Materials: Pen, paper, computer with internet access

Prep: None

## Activities

- **Research a Career:** Choose a career that interests you and research what it involves, required skills, and education needed.
- **Interview Someone:** Interview a family member or friend about their job. Ask about their daily tasks, favorite parts, and challenges.
- **Create a Career Poster:** Design a poster showcasing a career you find fascinating. Include key information and fun facts.

## Talking Points

- **What are careers?** Careers are jobs or professions that a person trains for and pursues as their life's work.
- **Why is it important to explore different careers?** Exploring different careers helps us understand our interests, skills, and the variety of opportunities available in the world.
- **How can you learn about a career?** You can learn about a career by researching online, talking to professionals in that field, or trying out related activities.
