

Objective

By the end of this lesson, you will have fun exploring different subjects through activities you enjoy like Lego, perler beads, role play, candy, treats, and dancing.

Materials and Prep

Materials: Lego bricks, perler beads, costumes for role play, candy, treats, music for dancing

Prep: Make sure all materials are easily accessible for the activities.

Activities

- **Lego Engineering:** Build a Lego structure and explain the story behind it.
- **Perler Bead Art:** Create a colorful design using perler beads.
- **Role Play Adventure:** Pretend to be a character and act out a story.
- **Candy Math:** Use candy pieces to learn addition and subtraction.
- **Dance Party:** Groove to music and create your own dance moves.

Talking Points

- **Lego Engineering:** "Let's use these Lego bricks to build a cool castle. What do you think the castle's name should be?"
- **Perler Bead Art:** "Which colors do you want to use for your perler bead design? Let's create something beautiful together."
- **Role Play Adventure:** "Imagine you are a brave knight on a quest. What challenges will you face along the way?"
- **Candy Math:** "If I give you 3 candies and then 2 more, how many candies do you have in total? Let's count them together."
- **Dance Party:** "Let's dance like nobody's watching! Show me your favorite dance move and teach it to me."
