

Objective

By the end of this lesson, you will be able to create your own Minecraft house with different materials and decorations.

Materials and Prep

- Minecraft game
- Computer or tablet
- Basic understanding of Minecraft controls

Activities

- **Activity 1: Build Your House**

Start by selecting a location in Minecraft to build your house. Use different materials like wood, stone, and glass to construct the walls and roof. Add doors and windows for a realistic touch.

- **Activity 2: Decorate Your House**

Once your house is built, decorate the interior with furniture and decorations. You can add beds, tables, chairs, paintings, and even a fireplace to make it cozy and inviting.

- **Activity 3: Explore Your House**

Take a virtual tour of your newly built house. Walk around each room, open doors and windows, and imagine living in your creation. Think about how you can improve or expand your house in the future.

Talking Points

- “In Minecraft, we can build anything we can imagine, like houses, castles, and even entire cities!”
- “Different materials in Minecraft have different properties. For example, wood is easy to break, while stone is more durable.”
- “Decorating your house can make it feel more like a home. What decorations would you like to add to your house?”
- “Exploring your creations in Minecraft can help you see them from different perspectives and come up with new ideas.”
