

## Objective

By the end of this lesson, you will have fun exploring English, Math, and Science concepts through activities related to gaming, Minecraft, Halloween, cooking, and cleaning.

## Materials and Prep

- Paper
- Pencils
- Calculator
- Ingredients for a simple recipe
- Cleaning supplies like a cloth and spray
- Access to a computer or tablet for Minecraft

No prior knowledge required, just bring your enthusiasm!

## Activities

- **English:** Write a short story or create a dialogue between two Minecraft characters. Be creative and have fun with your writing!
- **Math:** Calculate the area of a room in your house using the measurements you take. You can use this to plan a Halloween decoration layout!
- **Science:** Conduct a simple cleaning experiment to learn about the science behind removing dirt and germs. Observe and record your findings.
- **Cooking:** Follow a recipe to make a spooky Halloween treat. Practice measuring ingredients and following instructions.

## Talking Points

- **English:** "Let's use our imagination to create a story where your favorite gaming character explores a haunted house in Minecraft!"
- **Math:** "Imagine our room is a Minecraft world. How many blocks would we need to cover the floor if each block represents 1 square foot?"
- **Science:** "When we clean, we are removing tiny particles we can't see. Let's investigate how soap helps us get rid of germs!"
- **Cooking:** "Just like crafting in Minecraft, following a recipe is like putting together ingredients to create something delicious. Let's have fun making our spooky treat!"
