

Objective

By the end of this lesson, you will be able to write a descriptive paragraph about your favorite Lego creation.

Materials and Prep

- Lego bricks
- Paper
- Pencil

No prior knowledge or preparation is required for this lesson.

Activities

1. Build your favorite Lego creation using the Lego bricks.
2. Once your creation is complete, take a few minutes to observe and think about it. What colors did you use? What shapes did you create?
3. Using the pencil and paper, write a descriptive paragraph about your Lego creation. Start with a topic sentence that introduces your creation, and then use descriptive words to describe its appearance, size, and any special features.
4. Read your paragraph aloud to a family member or friend, and ask for their feedback. Did they get a clear picture of your Lego creation from your writing?
5. Revise your paragraph based on the feedback you received, making any necessary improvements.

Kindergarten Grade Talking Points

- "Today we are going to write about our favorite Lego creation."
- "We will use words to describe what our Lego creation looks like."
- "We will start with a topic sentence to introduce our creation."
- "Then we will use words to describe the colors, shapes, and special features of our creation."
- "After writing, we will read our paragraph aloud and ask for feedback from someone else."
- "We will revise our paragraph to make it even better based on the feedback we receive."
