

Objective

By the end of this lesson, Sara will have a better understanding of VR game job simulator games and how they work.

Materials and Prep

- VR headset (if available)
- Computer or gaming console
- Internet connection
- Comfortable space to move around
- Enthusiasm and curiosity

Activities

1. Virtual Tour: Take a virtual tour of different job simulator games and explore the various roles available.
2. Role-Playing: Act out different job scenarios using imagination and movement.
3. Design Your Game: Draw or describe your own VR game job simulator concept.
4. Job Interview: Pretend to be in a job interview scenario and answer questions as if you were in a game.

Talking Points

- "In VR games, you can put on special goggles and feel like you're inside a different world!"
- "Job simulator games let you try out different jobs like being a chef, an office worker, or even an astronaut!"
- "Imagine you are a chef in a virtual kitchen. What would you cook?"
- "Let's pretend you are a firefighter in a game. What tools would you use to put out a fire?"
- "Designing your own game is like creating your own magical world where you make the rules!"
- "In a job interview, you get to show off your skills and talk about why you would be great at a job. What skills would you highlight?"
