

## Objective

By the end of this lesson, you will be able to understand how a calendar works and identify days, months, and dates.

## Materials and Prep

- A large wall calendar
- Colorful markers or stickers
- Basic understanding of numbers 1-31

## Activities

- **Days of the Week:** Practice saying the days of the week in order. Use stickers to mark the current day on the calendar.
- **Months of the Year:** Learn the names of the months and identify the current month on the calendar.
- **Counting and Dates:** Count the days in the current month and find today's date on the calendar. Circle it with a marker.

## Talking Points

- **Days of the Week:** "Today is [Day of the week]. Can you say the days of the week with me?"
- **Months of the Year:** "This is the month of [Current month]. Let's learn the names of all the months together."
- **Counting and Dates:** "Let's count the days in this month. Can you find today's date on the calendar and circle it?"
