

## Objective

By the end of this lesson, you will understand the concept of unity in art and music and create your own artwork and song that showcase unity.

## Materials and Prep

- Paper
- Coloring materials (markers, colored pencils, crayons)
- Headphones or speakers
- Music player or access to music streaming service
- No prior knowledge needed, just an open mind and creativity!

## Activities

- **Create an Artwork:** Draw a picture that represents unity to you. Think about how different elements can come together to create a harmonious whole.
- **Listen to Music:** Select a piece of music that you feel embodies unity. Close your eyes, listen carefully, and think about how the different musical elements work together.
- **Create a Song:** Using your favorite musical instrument or online music software, compose a short song that conveys the feeling of unity. Experiment with different melodies and rhythms.

## Talking Points

- Unity means things coming together to form a whole. In art, unity is when all the elements in a piece work together to create a sense of harmony and completeness.
- When we look at a painting or listen to a piece of music, we can think about how the colors, shapes, sounds, and instruments all work together to create a unified experience.
- Just like in a puzzle where each piece fits together to create a complete picture, in art and music, unity is achieved when all the different parts come together seamlessly.
