

Objective

By the end of this lesson, you will be able to create your own Minecraft horse farm and understand the lifecycle of a horse.

Materials and Prep

- Minecraft game
- Paper and coloring materials
- Access to the internet for research

No prior knowledge required, just bring your enthusiasm!

Activities

- Create a Minecraft horse farm: Build a stable, paddocks, and fields for your horses in Minecraft.
- Draw and color a horse: Use your art skills to draw and color a beautiful horse.
- Research the lifecycle of a horse: Learn about how a horse grows from a foal to an adult.
- Design a horse breeding program: Plan how you would breed horses to get the best traits.

Talking Points

- What is a horse farm?

"A horse farm is a place where horses are kept, cared for, and sometimes bred."

- How do horses grow?

"Horses start as foals, then grow into yearlings, then adults. They can live for many years!"

- Why is it important to take care of horses?

"Horses are beautiful animals that need love, food, water, and shelter to stay healthy and happy."

- What is breeding in horses?

"Breeding is when we choose specific horses to have babies so that the babies have good traits like speed or strength."
