

## Objective

By the end of this lesson, you will have learned about English, Math, Science, and Citizenship in a fun and engaging way!

## Materials and Prep

- Paper
- Pencils
- Colorful markers
- Calculator (optional)

No prior knowledge needed, just bring your curiosity and enthusiasm!

## Activities

- **English:** Write a short story about a magical adventure using your imagination. Remember to include a beginning, middle, and end.
- **Math:** Create a pretend store with price tags for different items. Practice adding and subtracting money as you "buy" and "sell" items.
- **Science:** Go on a nature walk and observe different plants and animals. Draw a picture of one thing you found interesting and write a sentence about it.
- **Citizenship:** Discuss what it means to be a good citizen. Draw a picture of how you can help your community or family.

## Talking Points

- **English:** "Let's use our imagination to create a story together. What should our main character's name be?"
- **Math:** "Imagine you have \$10 to spend in our pretend store. What items would you buy and how much change would you get?"
- **Science:** "Nature is full of amazing things! What did you observe on your nature walk that you found fascinating?"
- **Citizenship:** "Being a good citizen means helping others. How can you help someone in your family or community today?"
