

Objective

By the end of this lesson, Jyemeka will be able to apply skills learned from Minecraft to create unique Lego structures.

Materials and Prep

- Lego bricks
- Computer or tablet with Minecraft installed
- Comfortable workspace

No prior knowledge required, just enthusiasm for Lego building and Minecraft.

Activities

- **Activity 1: Minecraft Inspiration**
Explore Minecraft to find interesting structures or creations that can be replicated using Lego bricks.
- **Activity 2: Building Challenge**
Set a timer and challenge Jyemeka to build a Lego structure inspired by Minecraft within a specific time frame.
- **Activity 3: Storytelling with Legos**
Encourage Jyemeka to create a story using the Lego structures built, incorporating elements from Minecraft.

Talking Points

- *"In Minecraft, you can build amazing things using blocks. Today, we will bring those creations to life with Lego bricks!"*
- *"Let's think about what makes a structure in Minecraft interesting. How can we recreate that using our Lego bricks?"*
- *"Creativity is key in both Minecraft and Lego building. What unique ideas do you have for your next creation?"*
