Objective

By the end of this lesson, you will learn about the history of medieval castles and how they were built, while also creating your own castle in Minecraft.

Materials and Prep

- Minecraft game
- Computer or gaming console
- Internet access
- Basic knowledge of playing Minecraft

Activities

- **Research:** Look up information on medieval castles and how they were constructed. Take notes on key features.
- **Design Your Castle:** Use Minecraft to build your own medieval castle. Incorporate elements you learned from your research.
- **Present Your Castle:** Give a virtual tour of your castle to a family member or friend. Explain the historical significance of each feature.

Talking Points

- **History of Castles:** "Castles were not just fortresses but also served as homes for nobility and centers of administration and defense."
- **Castle Construction:** "Builders used stone, wood, and other materials to create strong walls, towers, and moats to protect the castle from invaders."
- **Life in a Castle:** "Nobles and servants lived within the castle walls, each with their own roles and responsibilities."
- **Castle Defense:** "Features like drawbridges, arrow slits, and portcullises were designed to keep the castle secure during attacks."
- **Legacy of Castles:** "While many castles are now in ruins, they remain as symbols of a bygone era of knights and feudal society."
