

Objective

By the end of this lesson, you will have a better understanding of Ancient Rome, including its culture, architecture, and daily life.

Materials and Prep

Materials needed: paper, pencils, coloring materials, computer or books for research.

Prior knowledge: Basic understanding of what an ancient civilization is.

Activities

1. Roman Architecture Drawing: Research different Roman buildings like the Colosseum and draw your own version.
2. Roman Mythology Coloring: Color pictures of Roman gods and goddesses while learning about their stories.
3. Roman Numerals Practice: Learn and practice writing numbers in Roman numerals.

Talking Points

- Roman Empire: "The Ancient Romans were great builders and conquerors. They built roads, bridges, and aqueducts to connect their vast empire."
- Gladiators: "Gladiators were fighters who entertained audiences in the Colosseum. They wore armor and fought with swords and shields."
- Roman Gods: "The Romans believed in many gods and goddesses, such as Jupiter, Juno, and Neptune. They thought these gods controlled different aspects of life."
- Roman Daily Life: "Romans enjoyed activities like chariot races, theater performances, and public baths. They also had a rich variety of food in their diet."
