

Objective

By the end of this lesson, you will be able to explore various subjects through the lens of My Hero Academia, enhancing your understanding and appreciation for different academic disciplines.

Materials and Prep

- Internet access for research and videos
- Notebook and pen for taking notes
- No prior knowledge required, just an interest in My Hero Academia

Activities

- **Art:** Create a superhero character inspired by your favorite My Hero Academia character. Draw and color your design.
- **English:** Write a short story where you are a student at U.A. High School. Include your hero name, quirk, and adventures.
- **History:** Research the history of superheroes in different cultures. Compare and contrast with the hero society in My Hero Academia.
- **Math:** Calculate the speed and distance covered by various characters during intense battles. Use real-world physics concepts.
- **Music:** Create a soundtrack playlist for different characters in My Hero Academia. Explain the choice of songs for each character.
- **Physical Education:** Design a workout routine inspired by the training regimen of pro heroes. Include strength, agility, and endurance exercises.
- **Science:** Explore the science behind quirks and their potential real-world applications. Discuss genetic mutations and superhuman abilities.
- **Social Studies:** Analyze the societal structure in My Hero Academia. Discuss the role of heroes, villains, and the government in maintaining peace.

Talking Points

- **Art:** "Let's unleash our creativity by designing our own superhero characters. What powers will they have?"
- **English:** "Imagine yourself in the world of My Hero Academia. What challenges would you face as a student hero?"
- **History:** "Superheroes have existed in various cultures throughout history. How do these legends compare to modern hero stories?"
- **Math:** "Today, we're calculating the speed of Midoriya's smash attacks. Get ready to apply math to hero battles!"
- **Music:** "Let's dive into the emotions of My Hero Academia characters through music. Which songs resonate with your favorite heroes?"
- **Physical Education:** "Time to train like a pro hero! Let's build our strength and endurance with a hero-inspired workout routine."
- **Science:** "Ever wondered about the science behind quirks? Let's explore genetic mutations and superpowers in My Hero Academia."
- **Social Studies:** "In the world of My Hero Academia, heroes and villains shape society. How does heroism influence government and culture?"
