

## Objective

By the end of this lesson, you will be able to match photos of occupations with their names and descriptions in a fun collage activity!

## Materials and Prep

- 18 photos of different occupations
- 18 separate individual cards with names of occupations
- 18 separate individual cards with descriptions of occupations
- Scissors
- Glue
- Large sheet of paper for the collage

No prior knowledge needed, just bring your creativity!

## Activities

- Create three groups of six photos of occupations, six names of occupations, and six descriptions of occupations.
- Match the photos with the correct names and descriptions to create a collage.
- Arrange the collage on a large sheet of paper and glue them down.

## Talking Points

- Occupations are jobs that people do to earn money. Let's learn about different occupations today!
- Each occupation has a specific name. Can you match the names with the photos of the occupations?
- Descriptions tell us more about what each occupation does. Pay attention to match the right description with the right photo!
- When gluing the photos, names, and descriptions on the collage, make sure they are placed neatly and creatively!
- Once you have completed the collage, take a step back and admire your work. You've just learned about different occupations in a fun way!
