

Objective

By the end of this lesson, the student will have fun while learning basic concepts in Art, English, Math, Physical Education, Science, and Social Studies through the theme of Plants vs Zombies 2.

Materials and Prep

- Device with Plants vs Zombies 2 game installed
- Space for physical activities
- No prior knowledge required

Activities

- **Art:** Draw your favorite plant or zombie from the game using crayons or markers.
- **English:** Describe the plants and zombies using simple words like big, small, fast, slow.
- **Math:** Count the number of plants or zombies on the screen and say the numbers out loud.
- **Physical Education:** Act out the movements of the plants and zombies - running, jumping, or stretching.
- **Science:** Talk about how plants grow and what they need to survive like sunlight and water.
- **Social Studies:** Discuss different environments where plants and zombies may live and why they are different.

Talking Points

- **Plants vs Zombies 2 is a fun game where plants protect your house from funny zombies.**
- **Plants need sunlight to grow and be strong, just like in the game.**
- **Zombies like to eat plants, but we can protect them by using our brains and strategy.**
