

Objective

By the end of this lesson, you will be able to understand different types of weather and how they affect our daily lives.

Materials and Prep

- Colorful paper
- Markers or crayons
- Scissors
- Glue
- Weather chart template (drawn on paper)
- Basic understanding of sunny, rainy, windy, and snowy weather

Activities

- **Weather Chart:** Create a weather chart with different sections for sunny, rainy, windy, and snowy weather. Draw and color the weather for each day.
- **Weather Dance:** Dance like the weather! Move fast for windy weather, jump in puddles for rainy weather, and make snow angels for snowy weather.
- **Weather Story:** Draw a picture of your favorite weather and tell a story about what you like to do when that weather happens.

Talking Points

- **Sunny Weather:** "When the sun is shining, it's a sunny day! We can go outside and play."
- **Rainy Weather:** "When it rains, the plants get a drink! We need rain for flowers to bloom."
- **Windy Weather:** "The wind blows leaves and makes kites fly! It can be fun to feel the wind on our faces."
- **Snowy Weather:** "Snow is like cold, soft cotton falling from the sky! We can build snowmen and have snowball fights."
