

Objective

By the end of this lesson, you will have explored different subjects through a fun teddy bear picnic theme!

Materials and Prep

- Teddy bears
- Blanket
- Paper and coloring supplies
- Math worksheets (addition and subtraction)
- Space for physical activities
- Basic knowledge of addition and subtraction

Activities

- **Art:** Draw and color a picnic scene with your teddy bear friends.
- **English:** Write a short story about your teddy bear picnic adventure.
- **Math:** Practice addition and subtraction using the number of teddy bears at the picnic.
- **Physical Education:** Have a teddy bear relay race or a dance party with your teddy bears.
- **Science:** Explore the concept of hibernation and discuss how it relates to teddy bears.

Talking Points

- Quotation: "Let's imagine our teddy bear friends having a picnic together."
- Quotation: "How many teddy bears do you have? Let's count them for our math activity."
- Quotation: "What colors will you use to draw your picnic scene? Let your imagination run wild!"
- Quotation: "Can you describe the adventures your teddy bears had during the picnic in your story?"
- Quotation: "For our physical education activity, let's make our teddy bears dance like nobody's watching!"
- Quotation: "Do you think teddy bears really hibernate? Let's learn more about it together."
