

## Objective

By the end of this lesson, Wesley will be able to increase his typing speed, practice typing words, sentences, numbers, and punctuation marks effectively.

## Materials and Prep

Materials needed: Computer with typing software, keyboard, desk, and chair.

Prep: Ensure the computer and software are set up and working properly before starting the lesson.

## Activities

- **Typing Speed Challenge:** Set a timer and challenge Wesley to type as many words as he can in one minute. Encourage him to focus on accuracy as well as speed.
- **Word Typing Practice:** Provide Wesley with a list of words of varying lengths to type out. Start with simple words and gradually increase the difficulty.
- **Sentence Building:** Ask Wesley to type out complete sentences. You can provide him with interesting sentences or let him come up with his own.
- **Number and Punctuation Typing:** Have Wesley practice typing out numbers and using punctuation marks correctly. Make it fun by creating simple math problems for him to type out the solutions.

## Talking Points

- **Practice Makes Perfect:** "The more you practice typing, the faster and more accurate you will become."
- **Use All Fingers:** "Try to use all your fingers when typing to improve your speed."
- **Focus on Accuracy:** "It's important to type accurately, not just quickly. Take your time to type each letter correctly."
- **Have Fun:** "Typing can be a fun skill to learn. Enjoy the process and challenge yourself to improve."
