

Objective

By the end of this lesson, the student will be able to identify and describe family members in the target language, using relevant vocabulary and phrases. The student will also be able to engage in simple conversations about family relationships.

Materials and Prep

- Notebook and pen for taking notes
- Flashcards (can be homemade) with family member vocabulary
- A mirror for practicing pronunciation
- Optional: A family photo album or pictures of family members

Before the lesson, ensure that the student is familiar with basic greetings and introductions in the target language.

Activities

• Vocabulary Flashcards:

Create flashcards for family member vocabulary, such as "mother," "father," "sister," and "brother." The student can practice by flipping through the cards and saying the words out loud, reinforcing pronunciation and memory.

• Family Tree Creation:

Have the student draw a simple family tree and label each family member in the target language. This visual aid will help them remember the vocabulary while also providing context for their relationships.

• Role-Play Conversations:

Engage in a role-play scenario where the student introduces their family members to you in the target language. Encourage them to use full sentences and ask questions about your family as well.

• Descriptive Sentences:

Ask the student to write a few sentences describing each family member in the target language. They can include details like age, favorite activities, or personality traits.
