

Objective

By the end of this lesson, the student will understand the basics of teamwork and problem-solving through fun activities inspired by Super Mario Wonder. They will learn how to work together with friends or family, just like Mario and his friends do in the game!

Materials and Prep

- Paper and colored pencils or crayons
- A timer (can use a phone or watch)
- Space to move around for physical activities

Before the lesson, make sure to set up a comfortable space for drawing and activities. Think about how you can make the activities fun and engaging, just like in the game!

Activities

- **Super Mario Character Drawing:**

Have the student draw their favorite character from Super Mario Wonder. Encourage them to add their own creative twist, like giving Mario a new outfit or creating a new character!

- **Obstacle Course Adventure:**

Set up a mini obstacle course using furniture or toys. The student can pretend to be Mario, jumping over "lava" (a blanket) and crawling under "mushrooms" (cushions) to reach the goal!

- **Teamwork Challenge:**

Play a game where the student has to work with a family member to complete a task, like building a tower with blocks. Discuss how teamwork is important, just like in the game!

Talking Points

- "In Super Mario Wonder, teamwork is super important! Can you think of a time when Mario needed his friends to help him?"
- "Drawing your favorite character can help you express who you like the most! What do you love about your character?"
- "Obstacle courses are fun! How does it feel to pretend to be Mario and jump over things?"
- "When we work together, we can solve problems much faster! What did you and your partner do to complete the challenge?"
- "Every adventure has challenges, just like in the game! What challenges did you face today?"
- "Mario teaches us that it's okay to ask for help. Who do you like to ask for help when you need it?"
