

## Objective

By the end of this lesson, you will be able to practice spelling words related to Star Wars.

## Materials and Prep

- Pen or pencil
- Blank paper or a notebook

No prior knowledge or preparation is required for this lesson.

## Activities

### 1. Star Wars Word Search:

Create a word search puzzle using Star Wars-related words. Write a list of 10-15 words related to Star Wars on a piece of paper. Then, using a blank grid, create a word search puzzle by hiding the words in the grid. Give the word search puzzle to the student and have them find and circle the words.

### 2. Spelling Bee:

Choose 5-10 Star Wars-related words from the word list you created earlier. Call out each word one by one and have the student spell them out loud. Encourage them to use their best effort and correct any mistakes gently.

### 3. Story Writing:

Ask the student to imagine a Star Wars adventure and write a short story about it. Encourage them to include as many Star Wars-related words as possible in their story. After they finish writing, have them read the story aloud and correct any spelling errors they may have made.

## Transitional-Kindergarten Grade Talking Points

- "In today's lesson, we are going to have fun practicing our spelling skills using Star Wars words."
- "We will start by doing a word search puzzle. Can you find the Star Wars words hidden in the puzzle?"
- "Next, we will have a spelling bee. I will say a Star Wars word, and you will spell it out loud. Remember to do your best!"
- "Finally, we will write a short story about a Star Wars adventure. Try to use as many Star Wars words as you can in your story. Afterward, we will read it aloud and correct any spelling mistakes."
- "Remember, spelling is important because it helps us communicate clearly and understand what we read. Let's have fun while improving our spelling skills today!"
