

## Objective

By the end of this lesson, the student will be introduced to the fun and interactive world of Brookhaven in Roblox, learning about basic game mechanics while engaging in imaginative play.

## Materials and Prep

- Access to a device that can run Roblox (computer, tablet, or smartphone)
- Roblox account (if not already set up, assistance may be needed)
- Familiarity with basic controls of the device being used

## Activities

- **Exploration Time:** Allow the student to explore Brookhaven freely. Encourage them to walk around, interact with different buildings, and discover what each place has to offer. This activity promotes curiosity and spatial awareness.
- **Role Play:** Choose a character and engage in role-playing scenarios. For example, pretend to be a doctor, a teacher, or a parent. This activity fosters creativity and helps develop social skills.
- **House Design:** Help the student design and decorate their own house in Brookhaven. Discuss different furniture options and colors. This activity encourages decision-making and artistic expression.
- **Friend Time:** If possible, invite a friend to join the game. Encourage cooperative play, where they can work together to complete tasks or explore the town. This supports teamwork and communication skills.

## Talking Points

- "Look at all the fun places we can visit in Brookhaven! Where do you want to go first?"
- "Let's pretend to be different characters! Who do you want to be?"
- "What color do you want to paint your house? Let's make it special!"
- "Can you show me how to drive a car? Let's go on an adventure together!"
- "What do you think our friends would like to do in Brookhaven? Let's invite them!"
