

Objective

By the end of this lesson, the student will be able to understand and apply basic math concepts related to budgeting for country clothing, while also enhancing their English skills through writing and discussion about fashion trends in rural settings.

Materials and Prep

- Notebook or journal for writing
- Pencil or pen
- Calculator (optional, for math calculations)
- Access to the internet (for research purposes)
- Examples of country clothing styles (images or descriptions)

Before the lesson, review basic budgeting concepts and familiarize yourself with different styles of country clothing, such as cowboy boots, flannel shirts, and denim jeans.

Activities

- **Research and Write:** The student will research different styles of country clothing and write a short essay (300-500 words) about their favorite style, including its history and why they like it. This will help improve their writing and research skills.
- **Budgeting Challenge:** The student will create a budget for a country clothing shopping spree. They will list items they want to buy, research their prices online, and calculate the total cost, ensuring they stay within a specified budget (e.g., \$200).
- **Fashion Show Presentation:** The student will prepare a short presentation or fashion show where they showcase their favorite country clothing items. They can describe each item, its purpose, and how it fits into country living.
