

## Objective

By the end of this lesson, the student will be able to confidently copy cursive letters on copied paper sheets, improving their handwriting skills and familiarity with cursive writing.

## Materials and Prep

- Copied paper sheets with cursive letters for tracing
- Pencil or erasable pen for writing
- A comfortable writing space
- Optional: A fun sticker or stamp for completed work

Before the lesson, ensure that the copied paper sheets are clear and easy to read. Set up a quiet and comfortable writing area to help the student focus.

## Activities

- **Letter Tracing:**

Start with tracing individual cursive letters. The student will follow the lines on the copied paper, practicing how to form each letter correctly.

- **Word Copying:**

Once the student feels comfortable with individual letters, move on to copying simple words. Encourage them to say the word out loud as they write it to reinforce letter sounds.

- **Fun Sentences:**

Introduce short, fun sentences for the student to copy. Choose sentences that include their favorite things, making it more engaging and enjoyable.

- **Creative Cursive:**

Let the student create their own cursive letters by adding fun swirls or decorations to their writing. This encourages creativity while practicing their skills.

## Talking Points

- "Cursive writing is like a secret code! Each letter is connected, and it can make your writing look fancy!"
- "When we trace the letters, we are learning how to make them just right. Let's pretend we're artists making beautiful letters!"
- "Words are made up of letters. Can you say the word out loud while you write it? It helps your brain remember!"
- "Look at how you wrote that letter! You did a great job! If you add a little swirl, it will look even cooler!"
- "Every time you practice, you get better! Just like playing a game, the more you play, the more fun it gets!"
- "Let's celebrate your hard work! Would you like a sticker or a stamp for your awesome handwriting today?"
