

Hello Explorer! Let's Learn About Amazing Parrots!

Have you ever seen a bird with super bright colors? That might be a parrot! Parrots are beautiful birds that live in warm, sunny places, often in rainforests.

What Do Parrots Look Like?

Let's look at some pictures! (*Show pictures/videos*)

- Parrots have strong, curved **beaks** to crack open seeds and nuts. Can you make a beak shape with your hand?
- They are covered in **feathers** of many amazing colors! What colors do you see? (Point out red, blue, green, yellow).
- Most parrots have two feet with special toes that help them grip branches and hold food.
- They have wings to **fly**! Let's flap our arms like parrot wings! Flap, flap, flap!

What Do Parrots Do?

- **Fly:** Zooming through the sky!
- **Squawk!** Parrots can be noisy! Can you make a parrot sound? "Squawk! Squawk!"
- **Talk?** Some parrots can even learn to copy human words! "Polly want a cracker!"
- **Eat:** They love eating seeds, nuts, fruits, and sometimes even flowers.

Fun Activities!

Let's get creative!

1. **Color a Parrot:** Use your brightest crayons or markers to color a parrot picture. Make it as colorful as you can! (*Provide coloring page or plain paper*).
2. **Parrot Craft (Optional):** Let's make a simple parrot mask using a paper plate, or glue colorful feathers onto your drawing!
3. **Parrot Pretend Play:** Let's pretend to be parrots! Fly around the room, perch on a chair (branch), and nibble on a pretend seed (or a real cracker/seed snack with help).
4. **Story Time (Optional):** Let's read a fun story about a parrot.

What Did We Learn?

Wow! Parrots are so cool!

- Can you point to a parrot in the pictures?
- Tell me two colors you might see on a parrot?
- What's one thing a parrot can do?

Great job learning all about parrots today!
