

## Objective

By the end of this lesson, the student will be able to identify and describe various animals in Spanish.

## Materials and Prep

- Whiteboard or paper
- Markers or colored pencils
- Printed pictures of animals
- Spanish-English animal flashcards (optional)

No prior knowledge of Spanish is required.

## Activities

1. Introduce the topic by asking the student about their favorite animals and discussing them in English.
2. Show the printed pictures of animals and ask the student to name them in English.
3. Write the names of the animals on the whiteboard or paper.
4. Explain that you will now learn how to say those animal names in Spanish.
5. Go through each animal one by one and teach the Spanish word for it. Show the picture and say the word aloud, encouraging the student to repeat after you.
6. Practice pronunciation by playing a game of "Guess the Animal". Describe an animal in Spanish and have the student guess which animal it is.
7. Use the flashcards (if available) to reinforce learning. Show a flashcard with an animal picture and ask the student to say the corresponding Spanish word.
8. Encourage the student to draw their favorite animal and write its name in Spanish next to it.
9. Review all the animal names in Spanish before ending the lesson.

## Second Grade Talking Points

- "Animals are living things that can be found all around the world."
- "Different animals live in different habitats, such as forests, oceans, or deserts."
- "Animals have different characteristics, such as fur, feathers, or scales."
- "In Spanish, we can learn how to say the names of animals."
- "Learning new languages helps us communicate with people from different countries."
- "Here are some useful phrases to learn in Spanish: 'Hola' means hello, 'Gracias' means thank you, and 'Por favor' means please."
