# Lesson Plan: Roblox Reading Adventure & Creative Art

## Materials Needed:

- A short, simple paragraph about a Roblox character (sample provided below)
- Plain paper or a sketchbook
- Crayons, markers, or colored pencils
- Pencil

```
body { font-family: sans-serif; line-height: 1.6; } h1, h2, h3 { color: #333; } .lesson-section { border: 1px solid #ddd; padding: 15px; margin-bottom: 20px; border-radius: 8px; background-color: #f9f9f9; } .lesson-section h2 { border-bottom: 2px solid #00a2ff; padding-bottom: 5px; margin-top: 0; } .step { margin-bottom: 10px; } strong { color: #2c3e50; }
```

## Lesson Overview

**Subject(s):** English Language Arts (Reading Comprehension), Art

**Grade Level:** First Grade (Age 6)

**Estimated Time:** 30-40 minutes

**Lesson Focus:** This lesson uses the high-interest topic of Roblox to practice reading comprehension of key details in a text. It then transitions this comprehension into a creative, hands-on art activity, allowing the student to express their own interests and apply their understanding in a new way.

## Learning Objectives

By the end of this lesson, the student will be able to:

- Read a short, first-grade level paragraph about a character.
- Answer 2-3 direct comprehension questions by identifying key details from the text.
- Draw a picture of their favorite Roblox character.
- Verbally describe one feature or action of the character in their drawing.

## Sample Reading Text

*(You can print this out or write it on a whiteboard. The text is simple, with high-frequency words and clear details.)*

## Meet Jax!

Jax is a Roblox pal. He has a big, happy smile. Jax wears a bright blue shirt and green pants. He loves to jump up and down. He is looking for a fun game to play. Maybe he will build a tall tower!

## Step-by-Step Lesson Procedure

### 1. 1. The Hook: Connect to Roblox (5 minutes)

Start by activating the student's interest. Ask questions like: *"What's your favorite game to play on Roblox right now?"* and *"Tell me about your avatar. What does it look like?"* This gets the student excited and connects the lesson directly to their passion.

### 2. 2. Guided Reading Practice (5 minutes)

Introduce the sample text. Say, *"I have a short story about a Roblox character named Jax. Let's read it together."* Read the story aloud once, pointing to each word as you go. Then, ask the student to read it aloud to you. Help with any tricky words.

### 3. 3. Comprehension Check (5 minutes)

Ask 2-3 questions that can be answered directly from the text. This assesses if the student understood the key details.

- *"What color is Jax's shirt?"* (Answer: blue)
- *"What does Jax love to do?"* (Answer: jump up and down)
- *"What might he build?"* (Answer: a tall tower)

If they struggle, guide them to find the answer in the text by saying, *"Let's look back at the story to find out!"*

### 4. 4. Creative Application: Draw Your Character! (5-10 minutes)

Transition to the creative portion. Say, *"You did a great job reading about Jax! Now it's your turn to be the artist. Can you draw a picture of your favorite Roblox character? It could be your own avatar or any character you love."*

Provide the paper and drawing materials. Give them 5-10 minutes of focused time to draw. Play some quiet background music if it helps them concentrate.

### 5. 5. Share and Describe (5 minutes)

When the drawing is complete, ask the student to share it. Give specific praise, such as, *"I love the colors you chose!"* Then, ask them to describe it: *"Tell me one thing about the character in your picture."* This encourages verbal expression and connects their art to storytelling.

### 6. 6. Lesson Closure (2 minutes)

Wrap up the lesson by summarizing the accomplishment. Say, *"Today was so much fun! We read about a character, answered questions like a detective, and then you created amazing art to show your favorite character. You are a great reader and artist!"* Display their artwork proudly.

## Differentiation and Inclusivity

- **For Extra Support:** Read the text aloud multiple times. Instead of asking questions, state a fact and ask if it's true or false (e.g., "Does Jax wear a red shirt?"). For the drawing, you can provide a simple character outline (template) for them to color and add details to.
- **For an Extra Challenge:** Ask an inferential question, such as "*Why do you think Jax has a big, happy smile?*" After drawing, encourage the student to write one simple sentence at the bottom of their picture describing the character (e.g., "My guy has a hat.").

## Assessment

- **Formative (During the lesson):** Observe the student's reading fluency and confidence. Listen carefully to their answers to the comprehension questions and their verbal description of their artwork.
- **Summative (End of lesson):** The successful completion of the drawing and the student's ability to correctly answer at least 2 of the 3 comprehension questions will demonstrate that the learning objectives have been met.
