

## Materials Needed:

- Paper
- Pencil or crayons
- Optional: Taylor Swift music playing softly!

# Taylor Swift's Math Party!

Hey Swiftie! Are you ready to use your amazing math skills to help Taylor today? Let's solve some problems inspired by her songs and tours!

## Warm-up: Counting Guitars!

Taylor has 7 sparkly guitars. Her friend gives her 5 more guitars for her collection. How many guitars does Taylor have now?

Let's write it down:  $7 + 5 = ?$

Count them up! She has 12 guitars! Awesome!

## Activity 1: Friendship Bracelet Math!

Taylor is making friendship bracelets for her fans. She made 15 bracelets yesterday. Today, she gave away 8 bracelets. How many bracelets does she have left?

Think:  $15 - 8 = ?$

Let's figure it out! She has 7 bracelets left.

## Activity 2: 'Shake It Off' Subtraction!

Taylor saw 18 fans dancing. 6 fans sat down to take a break. How many fans are still dancing?

Number sentence:  $18 - 6 = ?$

Solve it! There are 12 fans still dancing!

## Activity 3: Award Show Addition!

Taylor won 9 awards last year and 4 awards this year. How many awards has she won in total over the two years?

Add it up:  $9 + 4 = ?$

She won 13 awards! Fantastic!

## Wrap-up: Math Superstar!

You did an amazing job using addition and subtraction, just like a math superstar! You helped Taylor solve some important problems. Keep practicing your math skills!
