

## Objective

By the end of this lesson, you will be able to read and understand a recipe for baking bread, and identify key vocabulary related to the baking process.

## Materials and Prep

To complete this lesson, you will need a recipe for baking bread, a notebook, and a pen. Before starting the lesson, make sure to have a basic understanding of measuring ingredients and following recipe instructions.

## Activities

1. Read the bread recipe thoroughly and identify any unfamiliar words or terms. Write them down in your notebook.
2. Research the meanings of the unfamiliar words and write their definitions next to each word in your notebook.
3. Practice reading the recipe out loud, paying attention to the order of the steps and the measurements of ingredients.

## Seventh Grade Talking Points

- **Understanding a Recipe:** "When reading a recipe, it's important to pay attention to the order of the steps and the quantities of ingredients. This helps us follow the directions accurately."
- **Measuring Ingredients:** "In baking, precise measurements are crucial. We use tools like measuring cups and spoons to ensure we add the right amount of each ingredient."
- **Following Instructions:** "Recipes provide us with a set of instructions to create a specific dish. By following these instructions carefully, we can achieve the desired results."
