

Objective

By the end of this lesson, the student will have a comprehensive understanding of Australian geography, including its major cities, landmarks, and unique features.

Materials and Prep

- Computer with internet access
- Pen and paper
- Australian map or atlas

No prior knowledge is required for this lesson.

Activities

- **Research Australian Cities:** Have the student research and write a short description of five major cities in Australia, including Sydney, Melbourne, Brisbane, Perth, and Adelaide. They should include information about the city's population, landmarks, and cultural significance.
- **Create a Landmarks Collage:** Ask the student to find images of famous Australian landmarks such as the Sydney Opera House, Uluru, the Great Barrier Reef, and the Twelve Apostles. They can print these images or create a digital collage using a graphic design software.
- **Design a Travel Brochure:** Have the student create a travel brochure promoting a specific region of Australia. They should include information about the region's geography, climate, attractions, and activities. They can use their research and creativity to make the brochure visually appealing.
- **Compare Australian States and Territories:** Ask the student to compare and contrast the different states and territories of Australia. They should research and write about the unique features, population, and cultural aspects of each region. They can present their findings in a written report or a PowerPoint presentation.

Talking Points

- **Australian Geography:** Australia is the world's sixth-largest country and is known for its diverse geography. It is surrounded by the Indian and Pacific Oceans and has a wide range of landscapes, including deserts, rainforests, mountains, and coastal areas.
- **Major Cities:** Sydney, the largest city in Australia, is famous for its iconic Sydney Opera House and Harbour Bridge. Melbourne is known for its vibrant arts and culture scene, while Brisbane offers a subtropical climate and beautiful beaches. Perth is the most isolated capital city in the world, and Adelaide is renowned for its festivals and wine regions.
- **Famous Landmarks:** The Sydney Opera House is a UNESCO World Heritage site and is one of the most recognizable landmarks in the world. Uluru, also known as Ayers Rock, is a sacred site for the Indigenous people and is a stunning natural formation. The Great Barrier Reef is the world's largest coral reef system, and the Twelve Apostles are limestone stacks along the Great Ocean Road.
- **Regions of Australia:** Australia is divided into six states and two territories. Each region has its own unique features and attractions. For example, New South Wales is home to Sydney and the Blue Mountains, while Queensland offers the Great Barrier Reef and the Gold Coast. Western Australia boasts stunning coastline and the famous Wave Rock.
